Sight Replacement: Removing exiting sights and replacing with new sight equipment. This does not include any machining required to fit sights not designed for existing fitting.

Grip or Stock Replacement/fitting: Replacement of grips on pistols, rifles and shotguns. Custom fitting with shims, etc. apply generally to shotgun platforms.

Scope Mounting/Boresight: This process is generally for rifle and shotgun and includes proper leveling of mounts, setting appropriate eye relief for the client and bore sighting to 0:0 for range sighting of the firearm.
